PREFACE

The following is an historical account of the United States Army Field Station Korea located at Camp Humphreys, Pyongtaek, Korea for FY 60. This report was compiled by the USAFSK Historical Officer from contributions from all units and subordinate elements.

CHAPTER I - IDENTIFICATION, LOCATION (U)

1. (U) Identification, Location, Physical Plant

a. (U) Unit Designation

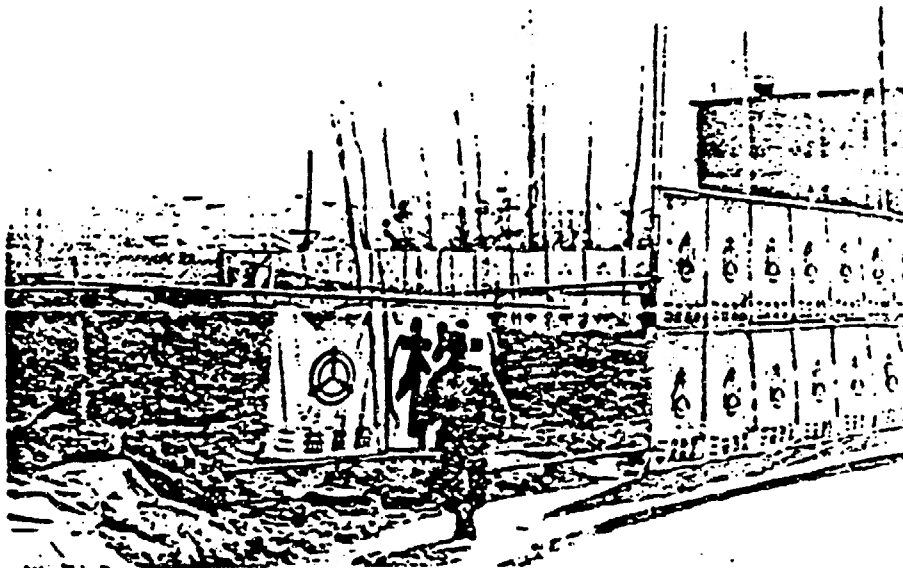

Headquarters

USAFSK

APC San Francisco 96271

2. (U) Location:

a. (U) Headquarters, United States Army Field Station Korea (USAFSK), and its subordinate companies of Headquarters and Service Company (HSC), and Operations Company (OPC), are located as tenant units at Camp Humphreys, An Jung Ri, Pyongtaek, Republic of Korea (ROK). Camp Humphreys is located 96.6 kilometers south of Seoul and 8.1 kilometers southwest of Pyongtaek City.

L. (U) With the activation of the 532d MI BN on 3 Sep 86, the 332d MI CO (E-), formerly a subordinate company of USAFSK, became a subsidiary of 532d MI BN.

c. (U) USAFSK has three forward collection detachments. Also, Detachment C, a remote unmanned TRD-15 antenna array, is located near the airfield at Camp Humphreys. The forward Detachments (Det J, Det K, and Det L) are remote Tracechain sites located near the DMZ. The three Tracechain sites are located as follows.

(1) (U) Detachment J is located at Koryo-Son Mountain, on the island of Kangwŏn, located next to the northwest coast of the ROK and approximately seventy-five kilometers northwest of Seoul and five kilometers from the Han Estuary Neutral Zone.

(2) (U) Detachment K is located on Kamak-San Mountain, thirteen kilometers west of Camp Casey, Tong Du Chon, ROK, and approximately ten kilometers from the Demilitarized Zone (DMZ). Detachment K is also the forward site for the Trojan project.

(3) (U) Detachment L is located on Yawol-San Mountain, one hundred eight kilometers north of Seoul and within fifteen hundred meters of the DMZ.

3. (U) The following is a listing of the building numbers and facilities associated with USAFSK on Camp Humphreys:

b. (U) Plans and Training.

(1) (U) Plans.

(a) (U) The USAFSK BEP is currently being updated in order to conform to the 501st MI Bde BEP. The USAFSK BEP plan outlines the tenant unit's actions during hostilities and readiness exercises.

(b) (U) The USAFSK OPLAN 5027 is being updated in accordance with the 501st MI Bde OPLAN 5027.

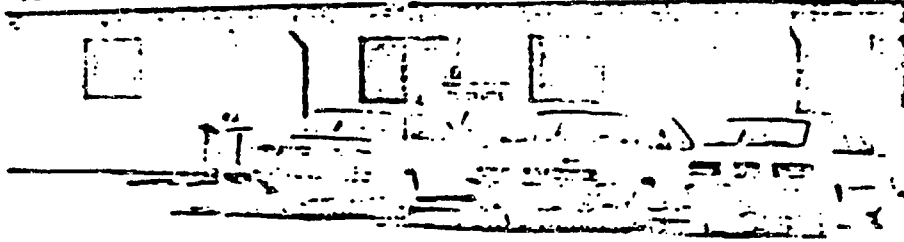

(c) (U) The USAFSK Training SOP is continually being rewritten in order to more carefully integrate the principles of BTMS.

(2) (U) Readiness.

(a) (U) USAFSK elements located at Camp Humphreys regularly participate in recall exercises which are initiated by the 19th Support Command and EUSA.

(b) (U) Practice evacuations of the forward detachments, Dets J, K, and L, are practiced regularly.

(3) (U) Athletics and Recreation.

(a) (U) Subordinate units of Field Station Korea fielded teams in soccer, soccer, softball, volleyball, and basketball. Teams participated in league activities sponsored by the Camp Humphreys and Camp Red Cloud Recreation Services Departments, as well as tournaments sponsored by the Eighth United States Army. The most notable accomplishments were:

(1) (U) The football team of CPD concluded the 1963 season in 1963 as the Camp Humphreys' champions. They were 1-0 for the regular season. They won the post playoff championship series. The team then went to compete in the Area Central Championship but lost the first two games and did not play in the tournament.

(2) (U) The volleyball team finished the 1963 regular season at 1-1. The team then placed second in the post championship tournament and went to Japan to represent Camp Humphreys at the Area Central Championship. The team placed fourth in Yongsan.

(3) (U) The softball team finished the regular season with a 1-1 record and placed first in their division. The team also won the 1-1 of the tournament for Camp Humphreys. The team placed third at Yongsan's Area Central Championships.

(U) ~~(S)~~ Training.

(a) (U) During Team Spirit at the Field Station master control center was staffed. An FSK BOC was implemented and manned on a 12 and 12 basis for approximately two weeks. A HOPPIN was conducted in conjunction with Team Spirit. The Field Station also maintained a Technical Data base which provided information to Blue and Orange Forces during the exercise.

(b) (U) The 50th MI Co (EM) deployed to the Team Spirit exercise area and company Field Training Exercise (FTX). This deployment included the company HQ, the Service Platoon, the Maintenance Platoon, the Operations Center, and three Operational Platoons. Joint training with HSC, 50th MI BN and site reconnaissance was conducted during this period.

(c) (U) In March 1966 the 50th MI Co (EM) deployed for Team Spirit to provide IN support to the Blue Field Army. The company HQ and Operations Center were located in the vicinity of the 7th Corps Tactical Operations Center (TCO). The IN platoons were deployed in the 7th Corps area of operations providing general support to the Army. The units provided intelligence reports and electronic countermeasures in support of Blue Forces.

(d) (U) The Field Station supported Live Environment Training (LET) for personnel on TDY to Korea from various units based in the US under the JEDP program as well as for personnel from in-country units, to include the 50th MI Co (EM).

(e) (U) FSK participated in UH-1H FOCUS LINT (UFL) Exercise in July, the month of July. AUSAAC personnel were deployed to the 50th MI Co (EM) and were integrated into the collection, processing and reporting effort during their field deployment. At FSK a BOC was set up. The Field Station conducted a 12-hour simulated Defense Force mission in addition to the real-world mission. The Field Station also supplied liaison personnel to CJ Hq and JFHQ and provided linguistic support to the 50th MI Co personnel located at Zoonet Station during the exercise.

(1) (U) The Field Station SL, as TSC-70, continues to be responsible for administering small qualification tests for all cryptologic MOS's within the unit. Small qualification tests were administered throughout the year for both cryptologic and non-cryptologic MOS's. FSK maintains a 94% pass rate on SCL, and a 100% test rate for all soldiers eligible to take the SCL.

(2) (U) In support of programs aimed at developing professionalism and leadership among soldiers, FSK sent 26 soldiers to the USMC Primary Leadership Development Course throughout FY00. Additionally, training at Oneju-20 was attended regularly by FSK personnel for adventure-type training.

(3) (U) In conjunction with JMS, firstline supervisors, senior MOS's and soldiers were sent to a Platoon Trainers and Training Manager workshop at Fort Belvoir, IL.

(4) (U) The Field Station continued to place emphasis on its physical training program in 2000. The program templates stipulated PT, to include a minimum of 10 minutes once per week, at least three times per week for all 1-7 and below. 1-7 and below are required to spend stipulated PT at least two times a week. Participants include personnel from ASG, OPA, SCL, and 1st Det.

(5) (U) The 1st Det (1-7) participated in CFT 00, Team Spirit 00, and Live Environment Training by deploying in support of the 1st Republic of Korea Army. The 1st Det participated in Exercise Crosslock in May 2000 and November 2000. The 1st Det (1-7) has an aggressive Live Environment Training (LET) schedule. Any time throughout the year at least one platoon of the company was in the field conducting training in support of operations unit exercises.

(6) (U) In spring 2000, USARF defined its training standards in terms of a Mission Essential Task List and Training Task, Condition, and Standards in accordance with USMC direction. The USMC Training Inspection Team highly praised the 1st Det for meeting their inspection in May 2000.

(j) (U) The first USAFSK night fire and aerial M60 ranges were held 11 Jan 86 and 27 Aug 86 respectively.

2. (FOUO) Logistics and Support.

a. (U) Several significant activities and accomplishments occurred during FY86:

(1) (U) The Command Supply Inspection evaluation was conducted during May 1986.

FSK placed 1st runner up DA Supply Excellence Award.

(2) (U) INSCOM CMI Inspection (17-19 Jun 86).

(3) (U) Signal Maintenance deadline rate kept between 3-4% despite severe power problems when INSCOM goal is 5% (Apr-Sep 86).

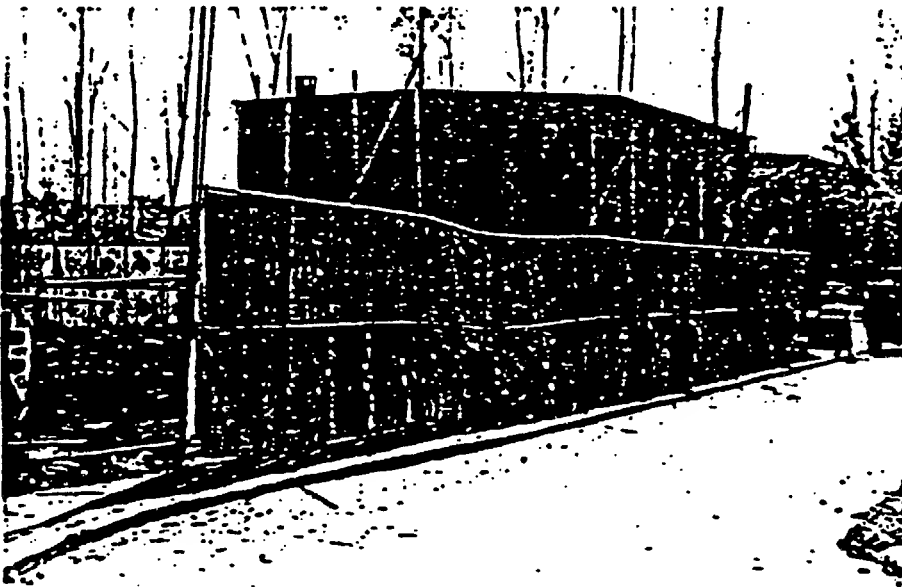

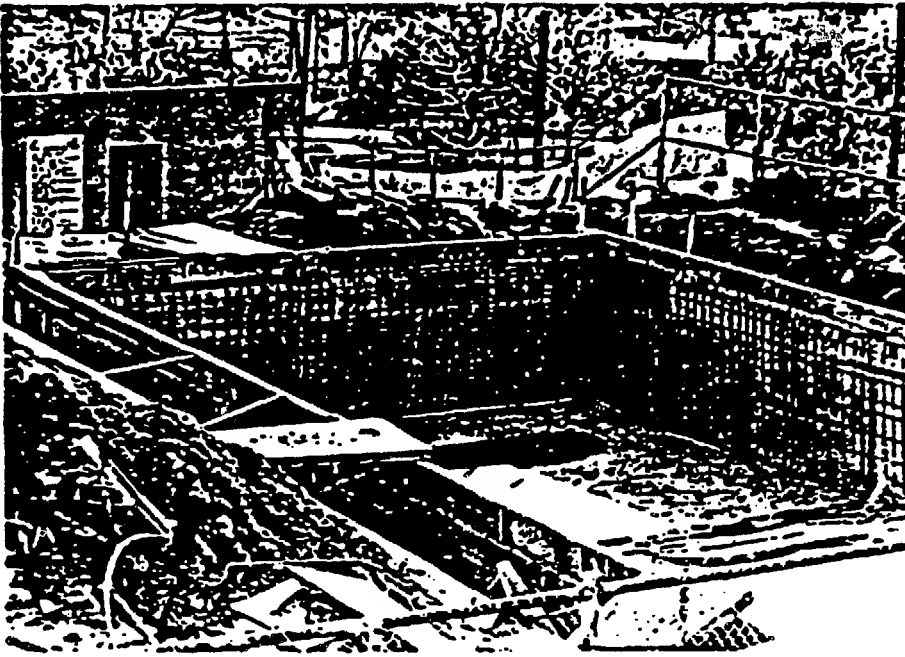

(4) (U) Supply maintained PLL 0 Balance, % rate under 2% and reconnaissance rate 98-99% (Apr-Sep 86).

(5) (U) New BEQ (Bldg #1280) was completed and tenants began occupying the building by 9 Jun 86.

(6) (U) S-4 provided both FSK and 501st MI Bde with logistic support during UFL.

(7) (U) Obligated 100% of (P38) fund for FY86.

(8) (U) Det K expansion project started on 4 Sep 86.

(9) (U) Det L expansion project was approved for an additional 175 sq. ft. for a SCIF.

(10) (U) The air conditioning project for building 1237, 1218, and 1219 started 15 Sep 86 and should be completed by 10 Nov 86.

(11) (U) Multi-purpose Activity Center construction began on 21 Sep 86.

(12) (U) 332d MI Co (EW) was relocated from Camp Page, Chunchon to Camp Red Cloud, Uijong Bu in Oct 1985.

(13) (U) FSK Aviation Section was shifted from under S4 control to the FSK XO.

(14) (U) The Quarterly Command Inspection Program was initiated .

b. (U) Security Activities.

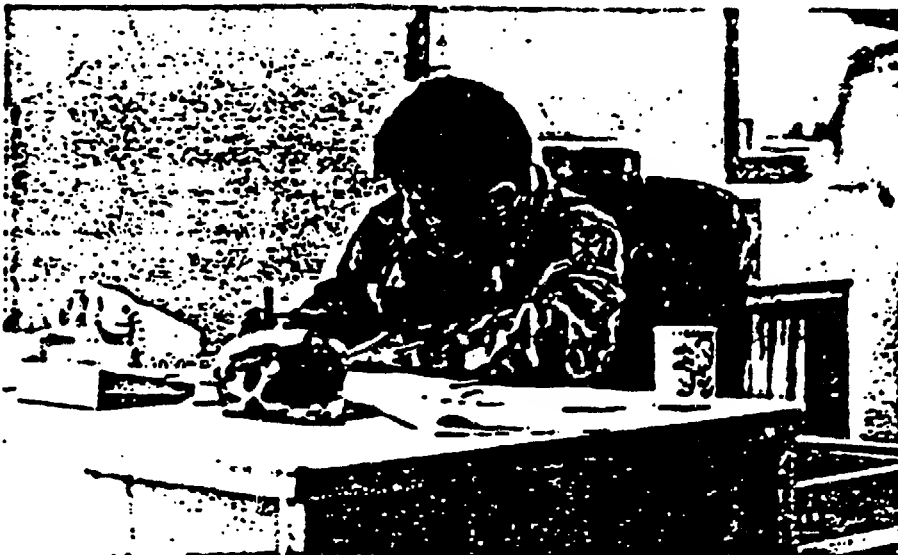

(1) (U) During FY85 the USAFSK S2 conducted staff visits and physical security inspections at each unit in the Field Station on a monthly basis.

(2) (U) SAEDA briefings were conducted June 1986 COMSEC classes were held in July-August 1986. OPSEC briefings were held in July 1986.

(3) (U) Numerous training activities for the MP's were held to include Detection Briefings, React to Sniper Fire, Process POW, Challenge Password, and Intruder Exercise.

c. ~~(FOUO)~~ Aviation Activities.

(1) (U) Mission: The major mission of the USAFSK Aviation Section is to provide logistical support to the three forward detachments during peacetime, and tactical support during war. In addition to this primary mission the USAFSK Aviation Section also flies missions for the 501st MI Bde Commander, Field Station Korea Commander, as well as the Field Station Staff elements when possible.

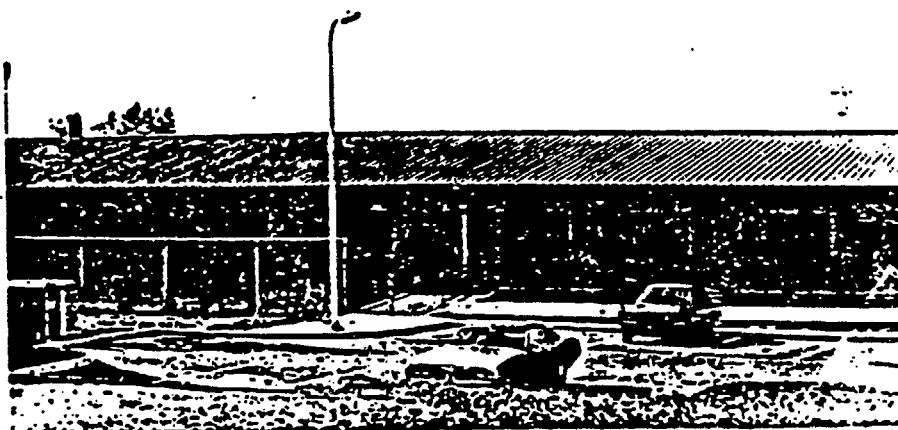

(2) (U) During FY86 USAFSK Aviation Section mission statistics were:

Missions Flown	383
Cargo Hauled (lbs)	84,773
Passengers Carried	2,858

(3) (U) In addition to routine Det support the following lists the exercises in which USAFSK Aviation Section participated throughout FY86:

Team Spirit 86	Feb/Mar/Apr 86
UFL 86	Jul 86
Det Evacuation	Apr/May/Jul 86

(4) (U) Aircraft Incidents: None

d. (S) Communications. The USAISC DET INSCOM is attached to the US Army Field Station Korea for UCMJ, rations, and quarters. The 36th Sig Bn and 1st Sig Bde are the higher headquarters for the USAISC DET INSCOM. MOU's are established to provide continuity between commands. The mission of USAISC DET INSCOM is to provide over the counter record message traffic; provide Criticom reporting capabilities for intelligence analysts through the use of communications circuit paths; provide courier service for Genser customers; provide Communications and Electronics assistance to FSK staff; and provide CONSEC support to FSK and three forward detachments. Logistics support is provided by the FSK S4 and the 36th Sig Bn S4. The USAISC DET INSCOM Tele-Communications Center is a remote terminal off the Osan "streamliners."

e. (U) Public Affairs.

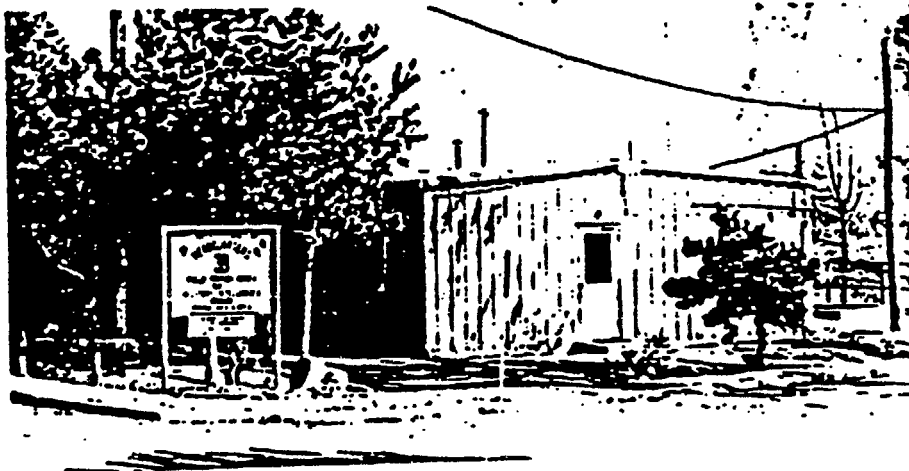

(1) (U) USAFSK was serviced by the Armed Forces Korea Network (AFKN) for both radio and television service.

(2) (U) USAFSK continued to support the Department of the Army and HQ INSCOM public affairs program with the submission of hometown news releases as well as articles for the INSCOM Journal.

(3) (U) Through donations and volunteer work, FSK continues to support the local Shin Saeng Orphanage located at An Seung, approximately 20 kilometers from Camp Humphreys.

(4) (U) The 332d MI Co (EW) sponsors the Chun Chon Orphanage throughout F36.

(5) (U) The 332d participated in KATUSA appreciation week as did USAFSK.
